Triggers

<u>Event of Default</u>	<u>Breach (Y/N)</u>
(a) subject to Condition 17 (Subordination by Deferral), if default is made in the payment of any principal or interest due in respect of the Notes and the default continues for: (i) a period of five Business Days in the case of principal, or (ii) three Business Days in the case of interest; or	No
(b) if the Issuer fails to perform or observe any of its other obligations under these Conditions or any Transaction Document to which it is a party and the failure continues for a period of 15 days (or such longer period as the Note Trustee may permit) (except that in any case where the Note Trustee considers the failure to be incapable of remedy, then no continuation or notice as is aforementioned will be required) following the service by the Note Trustee on the Issuer of notice requiring the same to be remedied; or	No
(c) if any representation or warranty made by the Issuer under any Transaction Document is incorrect when made and the matters giving rise to such misrepresentation are not remedied within a period of 15 days (or such longer period as the Note Trustee may permit) (except that in any case where the Note Trustee considers the matters giving rise to such misrepresentation to be incapable of remedy, then no continuation or notice as is hereinafter mentioned will be required) following the service by the Note Trustee on the Issuer of notice requiring the same to be remedied; or	No
(d) if any order is made by any competent court or any resolution is passed for the winding up or dissolution of the Issuer, save for the purposes of reorganisation on terms approved in writing by the Note Trustee or by Extraordinary Resolution of the Noteholders; or	No
(e) if (i) the Issuer ceases or threatens to cease to carry on the whole or a substantial part of its business, save for the purposes of reorganisation on terms approved in writing by the Note Trustee or by Extraordinary Resolution of the Noteholders, or (ii) the Issuer stops or threatens to stop payment of, or is unable to, or admits inability to, pay its debts (or any class of its debts) as they fall due or the value of its assets falls to less than the amount of its liabilities (taking into account its contingent and prospective liabilities) or (iii) the Issuer is deemed unable to pay its debts pursuant to or for the purposes of any applicable law or is adjudicated or found bankrupt or insolvent; or	No
(f) if proceedings are initiated against the Issuer under any applicable liquidation, insolvency, composition, reorganisation or other similar laws or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the Issuer or, as the case may be, in relation to the whole or any part of the undertaking or assets of the Issuer, and in any such case (other than the appointment of an administrator or an administrative receiver appointed following presentation of a petition for an administration order), unless initiated by the Issuer, is not discharged within 30 days; or	No

Prepayment Rate (CPR)

Average Constant Prepayment Rate (CPR) Since Issue with Calculation

Average CPR speed is the amount expressed as an annualised percentage of principal prepaid in excess of scheduled repayments. The average CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance assuming no prepayments have been made (i.e. only scheduled repayments have been made). The quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months since issue. Subtract this result from one then multiply it by one hundred (100) to determine the Average CPR speed.

	This Period	Last Period
--	-------------	-------------

	17.41%	15.43%
--	--------	--------

The calculation is expressed as follows:

$$CPR_{Avg} = 100 \times \left[1 - \left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months since}}}} \right]$$

3 Month Periodical Constant Prepayment Rate (CPR) with Calculation (Annualised)

Annualised Periodical CPR speed is the amount expressed as a periodical percentage of principal prepaid in excess of scheduled repayments. The Periodical CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance in the period assuming no prepayments have been made (i.e. only scheduled repayments have been made). This quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months in the period. Subtract this result from the one then multiply it by one hundred (100) to determined the Periodical CPR speed.

	27.34%	19.53%
--	--------	--------

The calculation is expressed as follows:

$$\text{Periodical CPR} = 100 \times \left[1 - \left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months in period}}} \right]$$

12 Month Periodical Constant Prepayment Rate (CPR) with Calculation (Annualised)

Annualised Periodical CPR speed is the amount expressed as a periodical percentage of principal prepaid in excess of scheduled repayments. The Periodical CPR speed is calculated by first dividing the Current Residential Mortgage Loan Principal Balance (i.e. the actual balance) by the Scheduled Residential Mortgage Loan Principal Balance in the period assuming no prepayments have been made (i.e. only scheduled repayments have been made). This quotient is then raised to a power whereby the exponent is the quantity twelve divided by the number of months in the period. Subtract this result from the one then multiply it by one hundred (100) to determined the Periodical CPR speed.

	n.a.	n.a.
--	------	------

The calculation is expressed as follows:

$$\text{Periodical CPR} = 100 \times \left[1 - \left(\frac{\text{Current Residential Mortgage Loan Principal Balance}}{\text{Scheduled Residential Mortgage Loan Principal Balance}} \right)^{\frac{12}{\text{months in period}}} \right]$$
